---

The timber salvage and fire control problems created in many towns by the hurricane are well known to you, as well as the efforts being made to reduce present and future losses. Public agencies are doing everything possible but INDIVIDUALS MUST BE AROUSED TO HELP!

I thank you for any cooperation of this kind which you may feel able to give.

## SUPERINTENDENT'S REPORT

---

I herewith submit my eighteenth annual report as superintendent of schools, it being the twenty-sixth in the series of such reports.

I see boys and girls come to our schools, pass through the grades, graduate (or drop out) and go into higher schools or to work: **and then!!** Well, what then? Have the needs all been met as far as possible? Is the life well balanced? Is there proper preparation for economic and social life? Is he a good citizen; Can he meet the new problems of the day?

Someone has said, "The fact that some pupils move through our usual school classes, year after year, with personality characteristics apparently unchanged, is probably to be interpreted to mean that the usual school routine has not touched the deeper levels of their life at all. The school which sets out to know the whole life of its students, and to help at their points of greatest need, will find an extraordinary opportunity to be of aid in improving relationships with other people." Our schools are doing some fine work along these lines, but they cannot do it all.

Leadership is needed and we have some fine examples and splendid efforts. "Leadership depends on the ability of the leader to live with, enjoy and direct the life of vigorous youth; together with an idealism and an understanding which guides young people to a worthwhile, efficient maturity and adult life."

Unquestionably the first and most important influence in the child's life is the **home—his home**—and other homes, which make up much of his social environment in rural areas. According to a recent survey only 3% of the single youth now living at home expressed a preference for living away from home. Only a few said they did not want families and homes of their own. It would seem, then, that the home will remain as an institution—the fundamental social unit.

A loyal group of teachers is seeking the school welfare of the boys and girls, and the schools are progressing well. A higher degree of regular and punctual attendance could be secured by more active support from the homes.

By wise administration the school property has been kept in good condition. Beautification of our school grounds and lawns should be our aim. New adjustable furniture has replaced part of the old desks in Madison Corner and Silver Lake Schools. The work should be completed this year. Ventilating heaters are needed at Madison Corner and Nickerson. The Nickerson Schoolhouse should be painted outside, and a sanitary should be provided there. The high school building should be shingled on the front side. Silver Lake Schoolhouse should be shingled on one side.

The health work is still under the care of Miss Nelson, our school nurse. Inspections have been made and special attention given to correction of defects. Some fine results have been accomplished.

The high school has been doing good work under the efficient leadership of the headmaster, Hammond A. Young, with Miss Erma Brooks as assistant. Glee Club, operetta, visual education, prize-speaking, plays, editorial and community work have been much appreciated. The Christmas trees and decorations were especially fine. The new course in Biology is a valuable addition to the school program. It would be desirable to have a room finished off in the basement for a recitation and study room.

Recent graduates from the high school now in post-secondary schools include Francena Pearson in Bates College, Lewiston, Me., Minerva Pearson in Muskingum College, New Concord, Ohio, Ruth Tyler in Nasson Institute, Springvale, Me., Robert Chick in Wentworth Institute, Boston, Mass., Walter Kennett at University of New Hampshire at Durham, Forrest

Leavitt at Concord Business College, June Chick at Chandler Secretarial School in Boston. Eleanor Whiting is in training for a nurse in Massachusetts General Hospital. Janet Gerry is entering Maine General Hospital in Portland for training in February. Robert Leavitt is to enter Concord Business College in the fall.

Last June four were graduated from Madison High School: Ethel Bickford, Marjorie Harmon, Florence Porter and Lawrence Nickerson. Lawrence Nickerson is taking a course at the University of New Hampshire. Florence Porter is planning to study nursing.
